

UFLUO-HAND: the portable UV detection lamp

UWAVE has developed the UFLUO-HAND, an innovative system that offers a portable & easy-to-use solution for fluorescence application

Its weight (830g in total) and autonomy (more than 5h continuous working time) make the UFLUO-HAND a lamp adapted to manual detection work

Instant Detection

The UFLUO-HAND offers an **adapted solution for manual fluorescence processes**

It reveals every **chemical or material that contains UV optical brighteners** thanks to adapted 365nm LED technology

NO UV EXPOSURE

UNDER UV EXPOSURE

Complete Kit

The UFLUO-HAND is delivered in a kit containing all accessories needed for a simplified and safer use:

- **UFLUO-HAND**
- **Rechargeable battery**
- **Battery charger**
- **UV Safety glasses**

Wireless Battery Technology

The powerful battery offers an enduring and durable process:

- More than **5 hours continuous working time** in one charge
- Full charge **in less than 40 minutes**
- Status LED to indicate charge progress:
still charging (Red) OR **fully charged and ready to operate (Green)**

Advantages of LED Technology

- **Optical stability:** instant ON/OFF & no warm-up time
- **Longer lifetime:** between 15.000 and 20.000 h
- **Easier integration:** robustness & compacity
- **Eco-friendly structure:** 0% mercury & no harmful ozone production
- **Energy saving:** fewer electrical power needed to operate
